On-Demand Learning Platform

Benefits of a modern approach to online training

Comparison with other models

More Flexible than Classroom Training

Training videos available **on-demand from any device**

Fast-search to find "how-to" training and **maintain user productivity**

Empowering all employees

Don't have to call helpdesk with "How-To" questions

Load company specific training for onboarding new employees

Users can **build their own** training curriculum and save / share favorite videos

Modern Approach to Online Training

Proven Advantages

Self-Service learning really works

Users can **quickly find the "how-to" video** when they need it to complete a task

Reduces calls placed to the Helpdesk

Accelerates adoption of advanced functions of Microsoft 365 - ***realize the full benefits of the platform***

Easy to Deploy

1. No additional user sign-in
2. Runs inside Teams
3. Access from any device
